

Wild West Subud- Why?

This is the book I have most wanted to write. Unlike my previous 2 books (Book 1 “Amazing Grace” and Book 2 “Go Away! Get Out! How Can You Call Yourself A Subud member?”) I am not writing in an article format, so I can take my time, provide more detail, meander a little...The result is that this book moves more naturally on with less abrupt leaps and changes. Chronologically it flows more easily and more coherently to me. True, there is a lot to take in from any one Chapter, so it has an intensity and a wealth of detail that may not be to everyone’s taste. Nonetheless I hope that by the time you get to the end of this book, any efforts you have made will be felt to be worth making! We shall see...

Much of this book repeats the contents of the 2 books that have gone before but there are both more details and more experiences. There are some completely new additions, too:

- A completely new first and last Chapter
- More personal revelations and insight; more personal growth and understanding of others
- More and new experiences
- Meetings with mediums, a palmist, an astrologer and even an encounter with an amazing ghost!
- Subud and Jung
- More about widening and deepening the latihan
- A Latihan Association: Alternative Latihan Groups
- A Summary of the Effects of 40 Years of Latihan

- A Challenge To The Reader and A Pragmatic Way Forward

Good Luck!
